

A trusted leader since 1921

Consumer Credit Reports

Use our resources to learn more about the people behind the small to medium-sized businesses before you extend credit.

For those companies that you would like to work with, but their business credit files are a little too sparse or are very new, you may need to pull a consumer credit report on the principal of the business. In many of these companies, a report on the owner is a report on the business.

When dealing with your credit, you want professionalism and experience.

CIC Credit has been a leader in financial products and credit reporting since 1921. Our staff has over 20 years in credit and background screening ensuring compliance, accuracy and quick turnaround times.

Here at CIC Credit, we bring years of reliable experience to you.

Merge Technology uses sophisticated algorithms to produce an accurate combination of credit data from all three credit repositories (Experian, Equifax, and Transunion).

Security & Compliance tools verify the identity of the consumer(s) and can perform checks for fraud and compliance.

Simplicity with CIC Credit

Pulling a consumer credit report on the principal of the business is now easier than ever. You can now have access to consumer credit reports directly through the NACM dashboard with the help of CIC Credit. Our integration now makes it a simple process to leverage personal credit in your commercial credit decision.
